A.U.S.S.I. TOP TEN TIMES 1979

The times listed are the ten fastest for each event by Men and Women in 5 year age groups. They were recorded during the period ending December, 1979 and are intended to act as a guide, particularly for swimmers from isolated clubs who do not have the opportunity to swim against others their age.

The standard continues to improve as our numbers increase and many records have been broken BUT don't be disheartened if you're not fast enough to qualify for the sprint events as there are still many gaps in the longer distances, especially the 400m. medley.

PEG WILSON (women) and STEVE BYLES (men) seen on our cover this issue, and both of the TAMWORTH CLUB, N.S.W. have done a very good job with this mammoth task. They have tried to make things easier for you by issuing a preliminary list and asking only for those times which are better than the ones listed. This will be done again in 1980 with an extra list in September.

September, 1980 list will be of the 10th time received for each event up to the end of August. So that it will be as up to date as possible, YOU are asked to send cards from all carnivals as soon as possible (like NOW). You will have three months to try to qualify for the events of your choice whilst knowing what time will be required to have a chance.

LASTLY, make sure that someone in your club is responsible for looking after and forwarding the times you record. I have heard of at least one club where the Recorder didn't bother to forward the times.

NOW, look for your name. If it doesn't appear see if you can make it at least once in the next list. GOOD SWIMMING - regards *Gary S.*
