WELCOME TO THE

A.U.S.S.I. 8TH NATIONAL CHAMPIONSHIPS

INCORPORATING THE N.S.W. STATE CUP

It is with pleasure that I welcome all A.U.S.S.I. members, competitors, officials, family and friends to New South Wales for the 8th National Swim and Club Championships incorporating the N.S.W. State Cup. For the first time the Championships are being conducted in a 50m indoor pool. The Warringah Aquatic Centre is a superb venue, every advantage is offered to the competitor and this is complimented by the facilities offered to organisers and officials conducting the meet. We are indeed fortunate that a venue such as this has been built in Sydney and is available to our organisation.

These Championships are a far cry from earlier ones hosted by this State. Those days about 95 competitors, mainly from New South Wales with a few stalwarts from other States, squashed around a 25m pool to swim a one day programme. In 1979, when Sydney was again hosting the Nationals, the programme was conducted over 1½ days and we moved to a 50m pool. In 1980 in Adelaide electronic timing was introduced, plus a Friday night session.

Now in 1982, such is the stature of these Championships, that the programme will be swum over 2½ days in a world class venue with electronic timing and 3 time keepers per lane. Strong teams from every State, Western Australia with the majority of their clubs represented, South Australia, Victoria, Queensland who have teams which travelled down from their far north, the new branches A.C.T. and Tasmania and naturally New South Wales who are swimming the dual championships are attending.

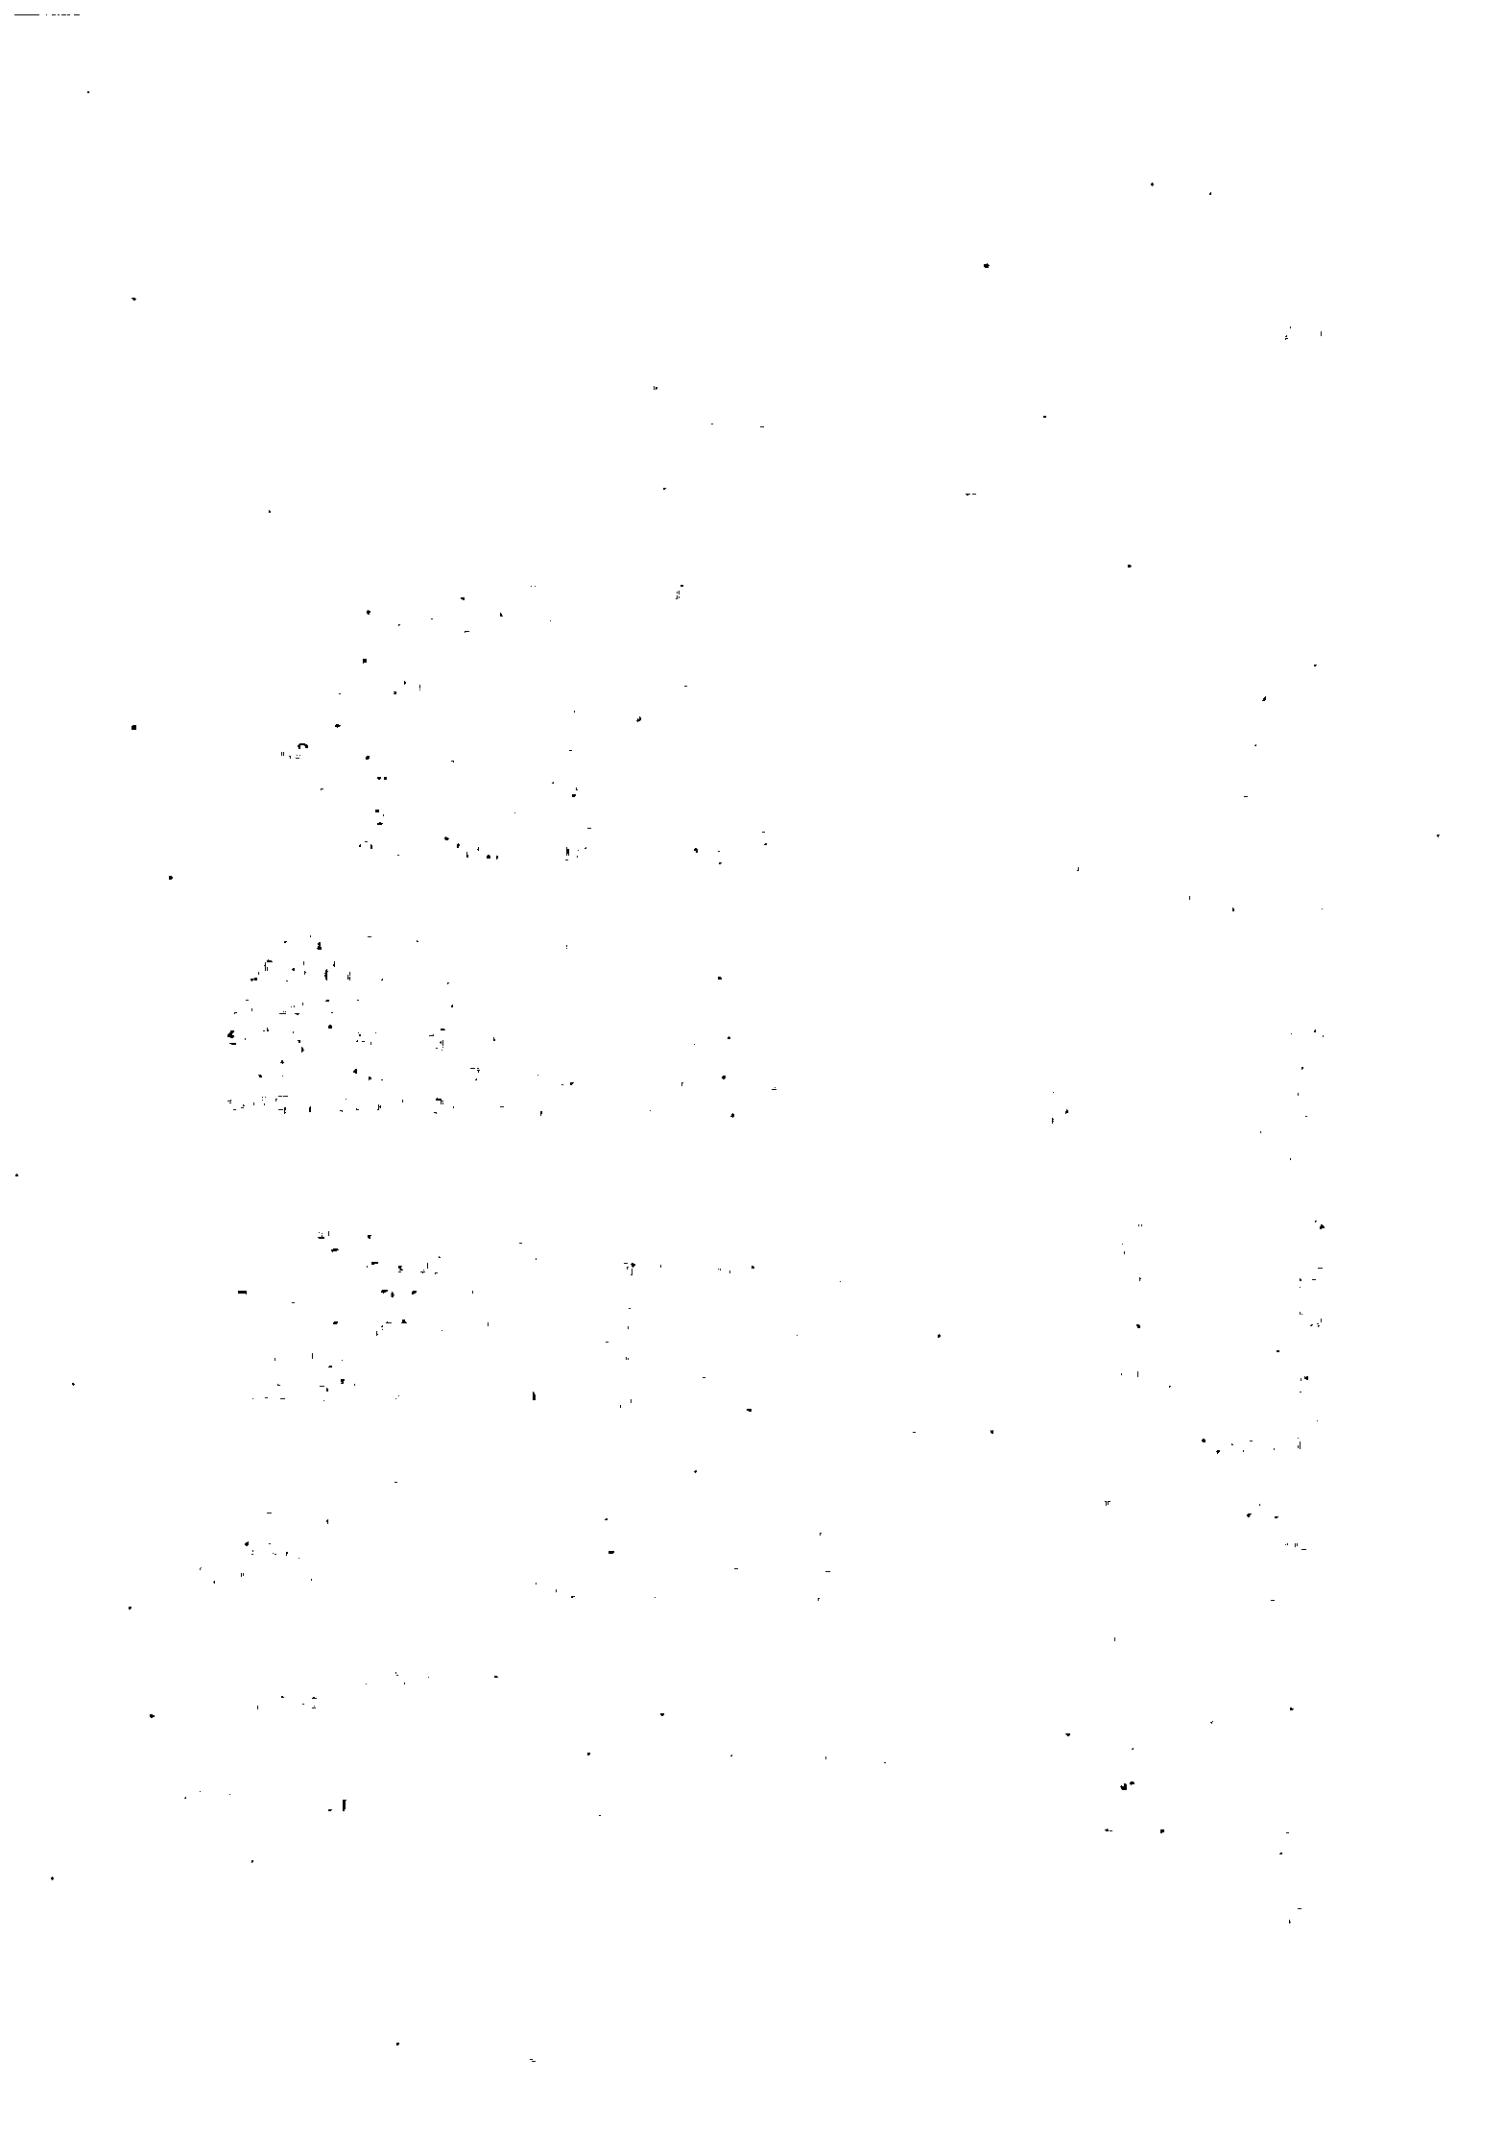

While the keen competitive swimmer, and facilities organised to authorise records have been given every consideration, the A.U.S.S.I. ideal of participation and enjoying ones swimming has not been overlooked. There are more team events and great club spirit in this 1982 National Swim.

To those members who give of their time in the administration of A.U.S.S.I. and will be attending meetings during the National Swim period, I thank on behalf of all other members.

To the visitors to New South Wales, I hope you find this State friendly and your stay enjoyable.

To all competitors, good luck and good swimming.

Peter Jackson,
President.

BREASTSTROKE (continued)

5. A part of the head shall always be above the general water level, except that at the start and at each turn, the swimmer may take one arm stroke and one leg kick while wholly submerged before returning to the surface.

BUTTERFLY

1. Both arms must be brought forward together over the water and brought backward simultaneously. 'Over the water' is defined as 'that at some state of the recovery i.e. the forward motion of the arms, the whole of the arms must clear the normal surface of the water.' This is the minimum requirement.
2. The body must be kept perfectly on the breast and both shoulders in line with the surface of the water from the beginning of the first arm stroke, after the start and on the turn.
3. All movements of the feet must be executed in a simultaneous manner. The legs or feet need not be on the same level.
4. When touching at the turn or on finishing an event the touch shall be made with both hands simultaneously on the same level and with the shoulders in the horizontal position. The touch may be made at, above or below the water level.
5. After the start and turns a swimmer is permitted one or more leg kicks and one arm pull under the water, which must bring him to the surface.

BACKSTROKE

1. Any competitor leaving his normal position on the back before his head, foremost hand or arm has touched the end of the course for the purpose of turning or finishing shall be disqualified. Provided that a swimmer does not turn his body more than an angle of 90 degrees with the surface of the water he will be considered to be swimming on the back.

These rules of swimming only deal with A.U.S.S.I. National and State meets. They are worded in such a manner so that the physically handicapped swimmer may still compete and not be considered to have been disqualified. It must be pointed out that these rules do not cover World Championships nor the Pan Pacific Swims.

Rules are formulated to assist all swimmers, they should not be used as a means of taking unfair advantage of others.
