- AUSSI Committee Restructure
- Letter to the Editor
- National Records from Feb—June
- Travel Flyer for the National Swim 2003

This edition of the Newsletter has several pages of National Records many of which were not included in the last newsletter due to space. Hopefully you have received your certificates and this acknowledgement will be the 'icing on the cake'.

It would be great if more members would send in their ideas and thoughts and I thank Beryl Stenhouse for her letter re Masters Games.

Take time to read about the AUSSI Committee Restructure and think about how you might become involved. I know there are many members who know very little about AUSSI above Club level and for most part are quite happy for a dedicated bunch of people to carry out the duties and make the decisions—as most are there just to swim, get fit and be part of the social group. When I became involved in AUSSI, (about 13 yrs ago) it was as Club recorder for about 14 members, 2 years later, Branch recorder and the following year at National level. I must admit I knew very little about how it all worked and fitted together and that the hand book was never very far away (on the bedside table) and there is still plenty to do and to find out. Can't explain this, it's mystery. The AUSSI I started with has certainly changed over the years and I am pleased to say that I have been part of many of these changes and of course there's so much more to do. So why not think about what you might have to offer and then together we can create an even better AUSSI.

AUSSI Committee Restructure

By Julia Phillips

In the last issues of the Australian Masters Swimming Technical Newsletter and Australian Masters Swimming Coaching Newsletter we informed readers about the proposal to restructure the Coaching and Technical portfolios with the creation of a Coaching Committee and a Technical Committee. The proposal extends beyond just these two committees though, and in this issue of AUSSINEWS.COM I will explain some of the other changes that are to be considered by the Board in October.

The proposal that was accepted at the last Board meeting is to create a number of committees, whose members will be responsible to the Board for a range of activities (currently undertaken by branch portfolios) that are critical to AUSSI and its members. In addition to Coaching and Technical, there will be:

- Membership and Participation Committee
- Swim Meet Committee (incorporating the Australian Masters Games Committee)
- IT Committee (currently known as the National Computer Committee)
- Risk Management Committee (incorporating the Safety Policy)
- Communication Committee
- Records Committee

A discussion paper outlining this concept was tabled at the Board meeting in March 2002, and the concept received the unanimous support of all members. Should the proposed mix, activities, and format, of the committees be passed at the meeting in October, the new structure will become operational 21 days after the Board meeting, and will have an impact on all areas of AUSSI's operations.

It is proposed that each Committee will comprise up to five members. The members will elect their chairman at the first meeting (with the exception of the Coaching Committee, which will be chaired by the National Coaching Director), and will draft an operating plan at the beginning of each year detailing proposed projects and activities for the following year. For the first year however, the Committee will operate under the plan and budget approved by the Board at its meeting in October 2002.

The Committee Chairman will be responsible for the activities carried out by the Committee, and will report to the Board upon activities and income and expenditure against the approved operating plan.

It is not envisaged that the Committees will meet in person, but will conduct their business via email, phone, and if necessary, teleconference. This is the model successfully used for AUSSI's current Committees, and ensures that all AUSSI members can nominate for a Committee, irrespective of where they live.

Each Committee has requirements in terms of the qualification and/or experience required for members, a copy of which is available from the national office. If you would like to find out more, please contact sportadmin@aussimasters.com.au or phone 03 9399 8861 and ask Matt to send you a copy.

If you are interested in being considered, please obtain a copy of the criteria from the national office, and lodge your expression of interest before 7th August 2002.

ZOGGS

ZOGGS MASTERS SWIM SUITS

In continuing support of AUSSI Masters Swimming, ZOGGS presents the 'MACMASTERS' swimsuit, just part of their all-new innovative and exciting swimwear range to be released for the 2002 / 2003 summer season.

Designed for older swimmers or for those with a more mature figure, the suit's features include:

- CR25 Chlorine resist material for longer life of the suit
 - Cups incorporated into a shelf bra that provide support for the fuller figure
 - The 'SONIC' back design which provides greater back cover while still allowing freedom of arm movement.
- 
- A modest leg line which prevents the suit from 'riding up' and wider shoulder straps to provide extra support and maximum comfort.
 - Flattering suit colours of navy or black which are brought to life with the slimming effect of electric orange or red piping.
 - Available in ladies sizes 12-20.

Featuring a small ZOGGS logo embroidered on the chest, you can feel confident you are wearing the quality and comfort of ZOGGS, proud supporters of AUSSI Masters Swimming Australia.

ZOGGS – Born in Australia and Now Swimming Around the World

Letter to the Editor
AUSSI National Newsletter

Dear Pauline

Subject: Masters Games

For quite some time I have been concerned that AUSSI is putting far more into Masters Games than we are getting back. When we run a National or Branch Championship meet, or even an interclub carnival, we are catering for our own fee paying members and any profit goes back into our organisation. When we run the swimming section of a Masters Games, even more effort is usually needed, but we get little return.

In the past, we have justified this effort by saying that we are promoting AUSSI and getting new members. A glance at our membership figures shows that this is not true. Membership has fallen from 7641 in 1998 to 6996 in 2001. In some Branches where Masters Games are held, the drop is even more obvious – in Queensland, the membership has fallen from 2009 to 1726, in Victoria from 1419 to 1238.

My club, Cronulla Sutherland AUSSI, swims at a pool where there are large Masters Squads – probably well over 100 adults swimming regularly, but most not joining AUSSI. They attend Masters Games and don't need to join AUSSI – after all, we run the carnivals for them, so why should they?

The ASPAC Masters Games, to be held on the Gold Coast in September, offer many sports. Of these, several major sports require membership of their association as a prerequisite for entry. These include cycling, golf, lawn bowls, motocross and rowing.

Surely it is time for us to make membership of AUSSI a requirement for entering Masters Games. We have been in existence now for 27 years and most swimmers know about us. They choose whether or not to swim with us, and we are making it far easier for them to have much of what we offer without paying our membership fees. Also, we are devaluing the work of our volunteers by expecting them to organise and run these carnivals and even try to get sponsorship without any tangible benefit coming to AUSSI.

If we decide to take a stand on this issue, however, we must first get the co-operation of Australian Swimming so that they don't fill the void we would leave if the Masters Games organisers do not permit us to limit entries to registered members – we don't want them to run the swimming section of Masters Games.

What do you think?

Beryl Stenhouse

News from the National Office

AUSSI National recently said farewell to its first Victorian Sport Administrator, Rachel Coffee (19), and we wish her all the best for success in Manchester as she represents Australia in the Commonwealth Games.

Rachel, a talented butterfly swimmer, narrowly missed out on selection originally for the Games but her performance in the Mare Nostrum Tour (Monaco and Rome), gained her bronze and silver medals, and greatly impressed the selectors. So much so, that when a broken arm put Ray Hass out of the team, they had no hesitation in replacing him with Rachel. I'm sure AUSSI members will be keen to see how Rachel performs in the Commonwealth Games – she said she will give us all a wave as she's introduced to the crowd!

With Rachel's departure, we needed to employ another Sport Administrator, and utilising the services of the AFL SportsReady scheme once more, we quickly found an excellent replacement in Matt Egan.

Matt is 18, and AUSSI is his first full-time job since leaving school. He has only been with us a short time, but has settled in quickly and is proving to be a great asset to us. In the coming months he will be taking responsibility for a number of projects, especially in the areas of coaching, technical officials, and management of our databases.

AFL SportsReady was originally established to assist young footballers to gain work experience and a TAFE qualification to help them prepare for life after football. It was expanded to include athletes from all sports, and now also offers assistance to young people who want to make their career within the sport administration, leisure, or hospitality industries. The trainee is offered a year's contract with a company, which receives a financial incentive to make the employment of trainees an attractive proposition. For further information about AFL SportsReady phone 03 8663 3030 or visit the website on www.aflsportsready.com.au

Lane 9

This is how a triathlete signs off.

Once over the hill, you pick up speed. I guess it's better to be over the hill, than under it ! :)

I know someone who loves cooking with wine. Sometimes he even puts it in the food.

Rob did one of his best 800m Breaststrokes this morning, then admitted it was drug assisted. He had had an injection of cortisone in the ring finger of his right hand.

Did you know that jaguar cars are just like women (so one of my friends has told me) - they devour love and money at the same rate.

Accommodation for the World Masters Games in Melbourne.

Members from AUSSI Victoria are arranging billets for swimmers to this event.
